**Notes:**

- 1. The Protection Officer is responsible for requesting the correct level of track protection based on the type of work to be completed.**
- 2. When arranging track access authorities under this TAA, please also refer to the NCCN Work Instruction – TOA for Ultrasonic Track Testing, dated 12/9/23, its' purpose is to provide Network Controllers with a clarification of expectations when applying the Network Rules and Procedures surrounding the movement of track vehicles through the ARTC Hunter Valley when using Block Working and Track Occupancy Authorities (TOA's).**
