Requested By:	Aurizon
Subject:	Movement of two 2800 class locomotives from Albury to Scholey St Junction on the ARTC network
Effective Period:	Until movements completed

A waiver to the published conditions in the ARTC Train Operating Conditions Manual is granted for the movement of the 2800 class locos from Albury to Scholey St Junction on the ARTC NSW network.

The 2800 class locos are required to be dead hauled from the Vic/NSW border at Albury to UGL where they will be reclassified to the 3200 class. Movement will be via Macarthur and Islington Junction.

Operating details for 2800 class locos are:

Vehicle Code	Description	Speed Category	Load Category	Live Weight (tonne)	Maximum Speed (km/h)	Length over coupling faces (m)	Draw Capacity (MN)	HP	Remarks
2800	Diesel Electric Locomotive	S2*	L6	118	100	21.416	2.25	3000	Road numbers: 2809, 2821

Conditions of Movement:

- *Maximum speed limited to 100km per hour account locomotive characteristics not infrastructure.
- Air brakes and parking brakes must be fully operational on the 2800 class locos.
- The 2800 class locomotive is to be dead hauled at all times.
- The 2800 class locomotive must not lead.
- Locos 2809 and 2821 may be hauled in separate movements.
