Relevant Standards

Conditions of Approval

General:

1. All repairs are to be conducted by Trimble Rail (Beena Vision) only.
2. The system to be installed at least 3m from welded joints.

Supplier:

3. Any subsequent change to the design, materials or manufacturing process is not covered by this approval. The manufacturer should notify ARTC of any modification or changes in order to obtain a valid certificate.
4. Supplier to provide laser safety plan and guidelines including installation, maintenance, calibration and WHS requirements.
5. Systems to be installed by certified electrician and tested to relevant Australian Standards.

ARTC:

6. Equipment shall be removed or protected before resurfacing and grinding. ARTC Wayside experts to be contacted for removal of the equipment with a minimum notification period of 6 weeks.
7. Project Manager to ensure formal handover and sign off to Wayside Engineering Analyst. The handover to include all relevant quality records and any special maintenance requirements.

NEW EQUIPMENT AND SYSTEM APPROVAL CERTIFICATE

8. Laser warning signage is to be maintained in good condition and kept clean.
