Product description Rail pad

Item identification Getzner Rail Pad (HS960-7) RPH700

Application Getzner Rail Pad (HS960-7) RPH700 is approved for a 12 months trial at following location:

- 297.819-298.180 Upper Hunter Valley Ulan Line

Relevant Standards

Conditions of Approval

General:

1. A general condition of approval is that the supplier remains accredited to ISO 9001 specifically for these products. ARTC reserves the right to conduct its own audit of the manufacture and supply of these components to AS 19011.
2. Any subsequent change to the design, materials or manufacturing process is not covered by this approval. The manufacturer should notify ARTC of any modification or changes in order to obtain a valid certificate.

Supplier:

3. Supplier to provide a report on test results of Getzner Rail Pads removed during the trial period and detailed inspection of trial vs standard components at end of trial or earlier if signs of premature failure before test completion.

ARTC:

4. Add creep indicators between rail and sleeper during installation every 100m
5. Test site walkthrough within 14 days after installation
6. 7 day patrol inspection to pick up any signs of ineffective fastenings
7. Walkthrough inspection during course of trial
8. Thorough examination of wheel rail contact location in trial and standard components after trial.
9. Exam the rail condition at end of trial.
